EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Asaf Batelman on 5/11/2009.

The application has been amended as follows:

Claim 9, lines 15-19 now read as follows:

driving the second substrate holding mechanism so that the substrate is transferred from the third substrate holding mechanism to the second substrate holding mechanism to be held thereon be the second base while the substrate is being attracted and attached to the third substrate holding mechanism, maintaining the flatness of the substrate;

2. The following is an examiner's statement of reasons for allowance: The subject matter found to be allowable over the prior art of record is found in independent claim 9 and relates specifically to the method step of transferring a substrate from a third substrate holding mechanism to a second substrate mechanism while both are still actively holding the substrate to maintain the flatness of the substrate. The closest prior art reference, Koma et al. (US2001/0021571) fails to disclose the step including keeping both mechanisms actively holding the substrate at the same time to keep the substrate flat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOSHUA I. RUDAWITZ whose telephone number is (571)272-7856. The examiner can normally be reached on Monday - Friday, 7:30 A.M. - 5:00 P.M..
